The Cycle, Sacrifice, and Cost of Revenge

Review by Richard R. Blake - January 2008

Behcet Kaya in his first novel, "Voice of Conscience" writes from of a culture foreign to the understanding of most Western thinking. He writes of a culture steeped in traditions carried over

from generations past, a culture where family pride demands revenge once insulted.

"Voice of Conscience" is a strong first novel and Behcet Kaya is well on his way to becoming recognized for his classic approach in communicating a message with a strong story line. --This text refers to an alternate edition.

From the Author I must admit to being a late bloomer as a writer. After years of acting, my creative side gravitated to writing a story that had been percolating in my head for some time; the story of a troubled man and how he faces his inner demons. "Voice of Conscience" actually started out as a screen play, but I realized how limiting that form of writing was. There was so much more I wanted to describe and express.

My motivation for writing this novel was two-fold. The country of my birth fascinates people and rightfully so. Turkey has a long history with many civilizations enriching its soul. I wanted to share some of those traditions (particularly of northeastern Turkey) with the American people. Intertwined with that was the need to create a literary work that would touch the reader's soul and inspire him or her to question, probe and think about life. --This text refers to an alternate edition.
